

ERSHIGS

*The Leader in
FRP Systems*

21 May 2008

This is a letter for the recommendation of the Ohio Employee Health Partnership, they are the chosen MCO we use to help with the management of our claims.

We are an out of state employer in the manufacturing industry with various field sites located throughout Ohio. I have been very impressed by the OEHP they have really been on top of the facilitation and management of our claims. They are a professional company who not only exhibits diplomacy but can also get what needs donedone. They have been a huge help guiding me through the maze of Ohio's worker's compensation system. It is so important to have a team you can rely on and work closely with especially being out of the area.

I wouldn't hesitate to chose OEHP as your MCO, they are an asset for your company to have involved with the W.C. system. I will miss working with them after the completion of our jobs in their state. Stellar team!

Sincerely,

Gretchen Smith
W.C. Manager
Ershigs Inc.
